

# HydraulicLink™

## Maximum uptime at minimal cost

Scan the QR code  
to learn more!

Proactive, practical, cost  
efficient, and available for  
all your presses

Accessible from anywhere  
by smartphone and  
website

### #1 ELIMINATE PAPER DEPENDENCY

All press documentation is updated, digitalized and accessible from anywhere.

### #2 FEEDBACK ON SPARE PARTS

Qualified and quick access to pricing and lead times. Let us make you aware of obsolete and/or critical components.

### #3 SERVICE TRACEABILITY

Service reports stored chronologically for every press.

### #4 CALENDAR FUNCTION

Automated uptime reporting based on user feedback and agenda function.

### #5 TROUBLESHOOT BY SHARING VIDEOS

Virtual Eyes On (VEO) allows us to be on the spot, with you, in real time.

### #6 NO E-MAILING CAPACITY ISSUES

Upload and store large files instantly.

### #7 PREDICTIVE MAINTENANCE TOOL\*

Condition Monitoring (CM) will put you ahead of breakdowns. Be alerted when machine constants show instability.

### #8 FACILITATE INDUSTRY 4.0 COMPLIANCE\*\*

Customized production monitoring based on your needs.

\* \*\* These capabilities require certain investment in new hardware.

Hydraulic is a Danish company that has delivered more than 4,000 hydraulic presses and over 500 press modernizations in 60 countries since 1946.
